

Leipzig, 18.11.2020

## **Swansea Constellation becomes Swansea Concerts**

To take our next steps, Alexander Obert welcomes Kay Pester to jointly lead and manage the agency. With this new partnership, another field of activity - *Artist Management* - is added to our services.

To highlight this change, Swansea Constellation will now operate under the name **Swansea Concerts**.

Our core activity remains – **Concert Promotion** of all sizes in the area of Leipzig, Dresden, Jena and Berlin. We continue to work with both established and unknown venues, offering the best possible combination of art, culture, music, architecture and audience. The musical direction of our events will remain true to our roots while we expand our spectrum considerably, hosting interdisciplinary art events as well as extreme metal and punk concerts.

What is new is that we now offer individual **Artist Management**. Our range of services support artist development by overseeing communications, finances, media/public relations planning, social media, as well as tour production.
